

TAKE BACK YOUR INDEPENDENCE

BUILT WITH YOUR SAFETY IN MIND

Our ramp systems are constructed from slip resistant material. It's tough, durable surface is made to withstand all weathers conditions, is free draining and offers excellent traction for both wheelchair and pedestrian use.

Ramp features include:

- Adjustable height & length for the perfect gradient.
- Galvanized steel components.
- Robust construction.
- Choice of handrail colours.
- Less expensive than traditional concrete/brick construction.
- Minimal disruption on installation.

“Fantastic job”

Prompt arrival and worked in a timely manner. Ramp makes my disabled daughter's life easier. More independence, due to being able to access the back garden safely.

Emma, South Glamorgan

“ Prompt and brilliant job ”

The two fitters were on time, polite, did a good job with no fuss or bother. I would highly recommend them

Doreen, South Glamorgan

“ Prompt, Professional & Brilliant ”

I contacted Go Access.....
he had driven 60 miles.....
arranged a date for for the work to build a modular ramp to our specification. On the day, Craig, the obviously experienced fitter arrived on time & commenced work & continued in sunshine, rain, hailstones & snow..... until he completed the job in about 3 hours- excellently.

Adrian, Gloucestershire

QUICK & EASY INSTALLATION

Our modular ramp systems are easy to install and in most cases can be completed in less than a day. The unique design comes in a number of configurations and are individually tailored to fit your home.

1: Platforms which allow level access to your home.

2: Ramps which attach to platforms, which are adjustable in length and gradient.

3: Steps can be stand alone for direct access to your home or attached to a platform for people using walking frames.

4: Steps can have 600mm treads to suit people using walking frames.
