

TSL 1100
Step Lift

www.terrylifts.co.uk

Easy and reliable wheelchair access for the home

When a ramp is not feasible, the **TSL 1100 Step Lift** provides a simple, cost-effective and practical solution for domestic wheelchair access. It consists of a self-contained unit, which means it can be installed in less than a day by our experienced engineers. The lift features an extra wide platform and a large capacity of 385 kg, making it the ideal solution for bariatric users.
